DETAILED ACTION

Claims 138-189 are pending in the instant application.

Amendments

The amendment filed April 20, 2007 has been acknowledged and has been entered into the application file.

Previous Claim Objections

Claim 129 was objected to previously for being dependent upon a rejected base claim. The claim has been cancelled and the objection is withdrawn.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 90-128 and 130-137 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description and/or enablement requirements. Applicant's cancellation of the claims, arguments, and new claims overcome the rejections and the rejections are withdrawn.

Reasons for Allowance

The closest prior art is that of Wells et al. (*Bioorganic & Medicinal Chemistry Letters*, 2000, 513-515). Wells et al. teach a compound of the formula  which does not teach or suggest the sulfonamide linkage on the benzthiazole nitrogen or the replacement of indole for the benzthiazole ring. See page 514.

Conclusion

Claims 138-189 are allowed.
